

Q & A – Construction Mapping, Technical Support, and Fiber Mapping – Nov 5, 2025

1. In regard to the RFP for "Construction Management, Technical Support and Fiber Mapping". The scope mentions mapping infrastructure with Vetro Fiber software, will the Port provide a login for the winning bidder to perform this work or do you need this software in order to qualify?

You need the software in order to qualify.

2. What is the preferred format for the splicing documents?

The design firm will provide the splicing documents in PDF format for you to review.
